

To those in charge of teaching my child,

Hello _____

I am the parent of a student whom I entrust to you for teaching, and I am concerned about the deviations in education and their impact on our children in Primary and Secondary schools in Quebec.

The C.C.Q. program (Quebec Culture and Citizenship), which has been imposed since September 2024, has nothing “Quebécois” about it and represents a threat to the integrity of my child and our family.

The CCQ program, through the ideology of gender and the early hyper-sexualization it promotes, contains a collection of false benevolences that constitute a real threat to the psychological and moral development of my child, as well as to his/her physical health (We know that medical transition has irreversible consequences).
School institutions are increasingly threatening Parental Primacy, often using the stick of the DPJ (Youth Protection Directorate) against several parents, and this is unacceptable.

Therefore, with this letter, I ask you, who are in charge of teaching my child, to respect my parental primacy, by giving me access to the content of what you will be teaching as part of the CCQ, the periods during which you will be teaching it, and by respecting my decision to withdraw my child from classes whose content goes against my values.

I also invite you to remind the Ministry of Education that the law on public education clearly states that ideology has no place in schools.

I ask you, in the interest of my child, to make your voice heard, together with ours and that of thousands of parents, to demand without delay the removal of any content relating to gender identity inside or outside the CCQ course.
